1. Scope (iteration)

2. Summary

All functional PBS are mapped on use cases	
There are no use cases, not related to PBSs	
All product context entities (users & systems), described in PBS, are mapped on actors	
There are no actors, not related to product context entities (users & systems), described in PBS	
All quality requirements are considered in SRS and specified if necessary	
There are no considerations of quality criteria, not required in PBS or exceeded the required level	
All constraints are considered in PBS and specified if necessary	
There are no additional constraints, not required in PBS or exceeded the required level	
All requirements have comprehensive set of test cases	
All Actor—Use Case relationships have comprehensive set of test cases	

3. Functional PBS not mapped on use cases
4. Redundant Use Cases, not related to PBS
5. Context entities not mapped on actors
6. Actors not related to product context entities
7. Quality requirements not considered in SRS
8. Redundant quality criteria, not required in PBS
9. Constraints not considered
10. Redundant constraints, not required in PBS
11. Requirements without comprehensive set of test cases
12. Actor—Use Case relationships without comprehensive set of test cases
